SEVEN KILLED IN WRECK AT ERIE PA.

PASSENGER TRAINS IN HEAD ON COLLISION

ERIE, October 20—Seven known dead and five injured, four believed to be fatally hurt, was the toll of the wreck 200 feet west of the Union depot on the New York Central lines at 10:45 o'clock, Eastern Standard Time. The train No. 60, each bound, crashed through an open switch into train No. 23, a west bound passenger train.

A railroad investigation will be held tonight by the Division Superintendent to fix the blame if possible. Two of the dead have been identified, and some of the injured are able to give their names for identification. Three women and a girl have been identified.

The dead are:

Pasquod De Schampo, of Missoula, Mont.

Alvin Carlson, a boy of 18, Sebaska, Minn.

The injured are:

Mrs. D. L. Secord, Chicago; Elmer Forsmack, Sweden; Walter A. Richardson, colored, of New York city; Mrs. Jack Hanson, of Seattle, Washington, seriously injured and John W. Andrus of Buffalo.

CHARGES SINN FEIN WITH TREASON

LONDON, October 20—Sir Greenway, chief secretary to Ireland charged in the House of Commons today that the Sinn Fein was a highly organized society to destroy the British empire.

NEED POKER SHARKS ON THIS JURY

CHICAGO, October 20—Whether a man who bets his stack on nines and walks around his chair to change his luck is sane, was the question the jury in the trial of Carl Wanderer, ex-army officer, accused of murder was to decide today. "He bet his stack of chips on a pair of nines," said Bernard Roh, a relative, "and got up and walked around his chair when playing poker."

CARDINAL MAKES SERIOUS CHARGE ON ENGLAND

DUBLIN, October 20—Cardinal Logue preaching to a gathering in St. Patrick's church at Maybooth near here declared in a manditory today that the atrocities committed on the Irish exceed the German atrocities.

GET ADVICE OF FARM AGENT ON BUYING SEEDS

"Several farmers in the county were induced recently to buy high priced seed oats in the hope that they were smut proof and would give unheard of yields. Probably more will be approached in the future.

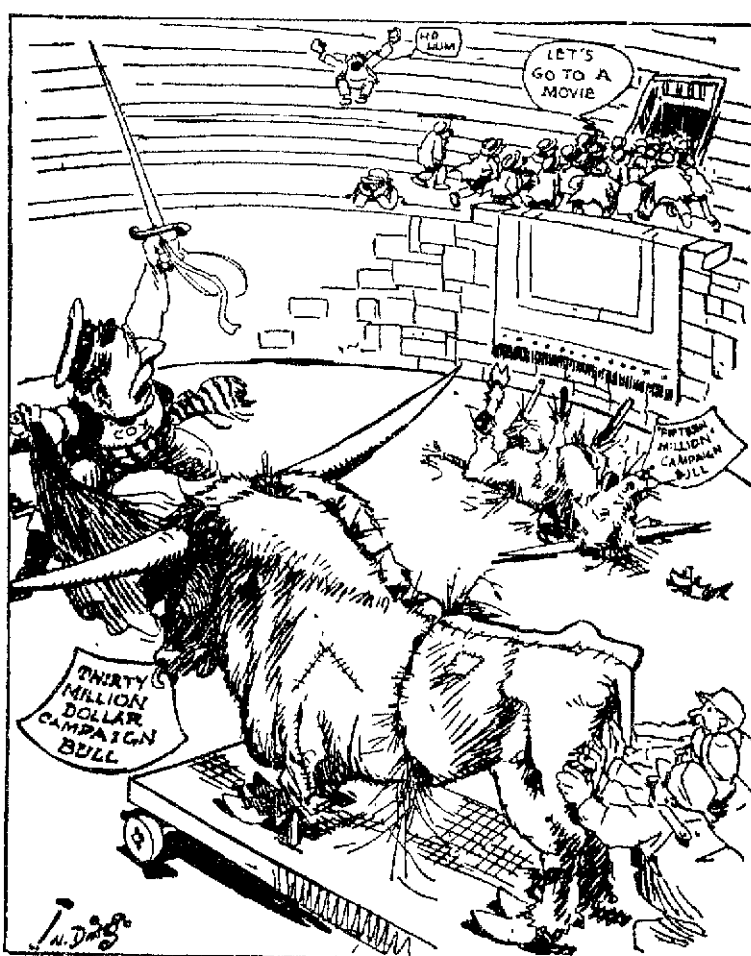

One of the functions of the Farm Bureau is to investigate varieties of grain to determine those best adapted to the county and if any superior varieties existed the County Agent should be one of the first to know about them, especially since he is in close touch with the Agricultural Experiment Station and State and Federal Departments of Agriculture.

Many costly investments in seeds, that are apt to lead to disappointment later, can be avoided if you will get in touch with your County Agent concerning the best practices in crop improvement before spending money for unknown seeds.

CELEBRATE FIFTEENTH ANNIVERSARY

A very pleasant surprise party was rendered John Boyle at his home in Hyde City on Thursday evening, Oct. 14, at being his fiftieth birthday. A sumptuous supper was served at six o'clock, fifty-six relatives and friends being present. Mr. Boyle received many useful gifts, among which was a beautiful rocking chair, presented by all those present. After wishing Mr. Boyle many happy birthdays and saying they never would forget the supper they departed for their homes. Those present from out of town were: Mr. and Mrs. George Conacher and family, Mr. and Mrs. Jack Boyle and son Billy of Dixonville, Mr. and Mrs. George Stager and family, Mr. and Mrs. Stewart Gates of Conipott; Mr. and Mrs. Jess Larrish and family, Mr. and Mrs. Young of Woodland and Bryan Boyle of Altoona.

The Bull Fighter

ENTERTAINMENT IS TO BE FREE HERE TOMORROW EVE

A hospital campaign entertainment will be staged on the Court House steps at 7:30 o'clock tomorrow evening. There will be music by Martin's "Jazzy Six" orchestra, piano music, singing by a male quartet and also a ladies' trio, solo singing, and speaking. The entertainment is in charge of W. F. Turner of the State Highway Department, who volunteered to attend to all details in the interest of the hospital campaign. J. D. Connelly and Street Commissioner Mansfield Graham have arranged for a platform upon which to hold the entertainment, and Leitzinger Bros. have loaned a street piano, the moving of which was voluntarily undertaken by the W. B. Holmes company.

About \$1,000 more was today reported collected for the \$200,000 hospital maintenance, endowment and building fund from the borough of Clearfield, and still "going strong," although scores more team workers are needed both in Clearfield and out in the county in order to put the drive anywhere near the goal.

FIRST LITERARY MEETING OF MODERN PROBLEMS CLUB

The first meeting of the Modern Problems club of Clearfield High school was held the evening of October 19th in C. H. S. The meeting was called to order by the president, Robert Berguson.

The program consisted of several essays, orations and a debate. The members taking part in the program were as follows:

Essay, "First Colonial Congress" —Bernice Anderson
Oration, "Great Chicago Fire" —Ethel Johnson
Essay, "John Brown's Raid" —Dorothy Quinn

Debate: "Resolved that United States Should Have Commerce With Germany."

Affirmative: Dorothy Dimeling, Albert Shugart, Vera Spencer.
Negative: Katherine Vandling, James Mandola, Raymond Otter.

After an effective argument by both sides the judges decided in favor of the affirmative.

At the close of the meeting beneficial criticisms were given by Mr. Rhoads and Mr. Kopp, members of the faculty.

The meeting proved a great success, and was enjoyed by all present.

Mrs. Mable Lawhead and Mrs. Dollie Snook have just returned from a week's visit with friends in Pittsburgh and Johnstown.

BRADFORD TOWNSHIP REPUBLICANS WILL ATTEND THE RALLY

According to reports reaching Clearfield, the Republicans of Bradford township are very much interested in the club meeting to be held here Thursday evening at the Harding-Coolidge club and are busy arranging to be present.

Thursday will be known as Woodland night and a general invitation is extended to the stalwart citizens of old Bradford Township to be present. It is not the intention to feed the Bradfordites upon band music and red fire as it will be remembered that such luxurious capers are left to those with lots of money to spend but rather will it be a meeting of good citizens resolute and determined to end Wilsonism and restore real democracy. The meeting will be held in the club room unless the size of the crowd makes it imperative to hold an overflow meeting. Ladies are invited but the club can hold out no inducements for them to attend owing to the lack of room in the club. However, our Woodland friend says the Republican women of Bradford are too good Republicans to mind standing room only.

There will be special jitney service from Woodland. The car will leave Woodland at 6:45 o'clock.

SAD DAY COMING FOR THE PITCHERS

(By HENRY R. FARRELL.)
(United Press Staff Correspondent)
NEW YORK, Oct. 20.—Beginning with the year 1920, professional baseball should have a batting renaissance.

At just about that time the unintentional tutoring of Babe Ruth will begin to show its effect on the American youth. Kids now at the impressionable age will be beginning to break into box seats of professional baseball and the cards say that a flock of pitchers will begin to yell for a trifle less, lively. Owners of clubs, too, will favor legislation to keep a flock of pellets from leaving the grounds every day. Something new in the way of batting achievements will have to be invented, probably, because home runs should be as common then as ordinary hits are now.

The reason for this dip into prophecy naturally is that everywhere in this broad—except perhaps mentally—land, the ten year old kid is #1.

HARRIS AND UREY ABLY DISCUSS POLITICS AT CLUB

Members of the Harding-Coolidge Club heard two fine addresses last evening on the occasion of the opening of the club activities.

Hon. Frank C. Harris spoke on early party history, comparing and contrasting the platforms and records of the major parties since the civil war. The address bore the earmarks of having been very carefully prepared and from beginning to end it summarized the forlorn hopes and defeated aspirations of the Democratic party from its sponsorship of slavery to free silver. His remarks were much enjoyed. They served to refresh the minds of older people who had not taken the time to recall the many farcical dogmas of that party and to the younger men present it sounded as a warning that a party with an ever changing program was simply an office seeking organization.

John M. Urey, Esq., was the next speaker. He spoke of the present and, began by calling attention to the great honor conferred on both Mr. Cox and Mr. Harding by their selection as candidates; paid high tribute to both men as private citizens and scathingly denounced those few papers and individuals who have been whispering malicious falsehoods regarding the private life and ancestry of the candidates. He stated that no American will condone such methods; that Americans generally have a fine sense of honor and a broad sense of justice which was more than demonstrated by the participation of this nation in the last great war to wipe Kaiserism from the face of the earth. He said that, league or no league, America would have the same spirit of brotherhood to all men but pointed out that entrance into the league would rob us of all freedom of action and make us subject to a super-government, the aims and purposes of which are defined in hazy phrases and the administration of which will be left to we know not who. However, Mr. Urey does not believe that the issue is the league of nations but that Wilsonism is the blight that is killing the fruits of pure Americanism and urges all citizens not to be deceived by the putting forth of maudlin sentimental arguments.

tating Babe Ruth. They've got his swing, his "stance" and even his "waggle."

Just as a caddy develops into a star golfer, simply through conscious or unconscious imitation of the star drive putter, he serves, so are the kids of today going to pick up some of Babe home run methods.

Of course Babe is unusually adapted to heavy clouting, but it is generally admitted that his swing and "follow through" help a lot in gaining distance. No one is more apt in acquiring the cunning of a star than the ten year old boy.

Baseball players just starting their career, should avoid becoming pitchers. In just a few more years the moundmen will be getting their bumps.

Really Nothing New.

In Java is the great temple of Borobodor, temple of the many Buddhas, which was unearthed some years ago, and is known to have been built in the fifth century, and right near it is the lesser temple of Mendoot. Further north, in the Caroline Islands, are the ruins of an ancient city whose streets were waterways just as those of Venice are today. So when visits are made to these virgin islands and one feels almost like a discoverer of new lands it is well to remember that there is nothing new, even under the tropical sun.—Exchange.

What a Real Pearl Is.

The real pearl—that is the fine, spherical, iridescent gem—is not a product of the mother-of-pearl or nautilus, but of the oyster shell, as are the baroque and seed pearls, but is formed in the gills and never grows in size. They begin as a small blister containing a hyaline fluid which condenses slowly and gradually hardens in concentric layers. The iridescence is due to the minute films of air or gas that are contained between the layers.

COX WILL DEMAND NAME OF FRENCH MAN WHO TALKED TO SENATOR HARDING

By HERBERT W. WALKER

En Route with Governor Cox, Providence, R. I.—Governor Cox declared today he would demand that Senator Harding reveal the identity of the person, who representing the French government, asked the Republican candidate to form a new association of nations. Cox will spend a busy day in Rhode Island and will then go to Massachusetts and Connecticut. He will make speeches in Willimantic, Backstone, Manchester, Hartford, Bidgeport and Waterbury.

NEW YORK, October 20—Maurice De Kobia, who Governor Cox intimated was the man who told Senator Harding the French people wished America to lead a movement for a new association of nations today denied that he had ever seen Harding. De Kobia is correspondent for La Liberte, a Paris newspaper.

"I tried to interview Senator Harding for the French newspaper but he refused to see me," De Kobia said. "I even sent him word and asked him to explain his stand on the League of Nations particularly for the French people who are extremely interested in the present campaign. I talked with Cox. I gave him the attitude of the French people as far as I knew it and he explained his stand. I told him I intended to see the Republican nominee. I suppose from that he believed I had seen him," De Kobia said.

LEAGUE OF NATIONS HAS MANY PROBLEMS

Program For Geneva Assembly Includes Admission Of Qualified States

By WEBB C. MILLER

United Press Staff Correspondent

LONDON, Oct. 5 (By Mail)—

Charges that the League of Nations has accomplished nothing during its first ten months of existence will be met when the Assembly of the League meets at Geneva for the initial session, at 11 o'clock on the morning of November 15.

Advance information indicates that a number of days will be required merely to hear of the report of the various commissions which have been authorized by the Council to investigate international questions.

The first meeting probably will be presided over by M. Paul Hymans, of Belgium. Later a permanent president will be chosen by the Assembly to preside for the remainder of the conference.

The first subject on the program is the discussion and adoption of rules of procedure and the appointment of the committee to examine and report on the credentials of the delegates.

Then will come the matter of admission of states not named in the original covenant, and not signatories of the peace treaties. These states who have already qualified for full membership rights will be immediately enrolled in the League.

Then will come the consideration and action of the League Council in the following matters:

The appointment of three members of the Saar Valley boundary commission.

The Saar Basin governing commission.

The appointment of the high commission of Danzig and the approval of the constitution of the Free City.

Responsibilities of the League arising out of the distribution of mandates and the enforcement of Article XXII (on mandates.)

The appointment of Dr. Fridjo Nansen, Arctic explorer, to investigate the problem connected with the repatriation of ex-enemy prisoners from Russia and Germany to their respective countries.

The proposed Commission of Enquiry on Russia (defunct).

The Polish Minority Treaty.

Guarantees of the League.

The resolution regarding the admission of Switzerland.

The establishment of the permanent Commission under Article XI of the Covenant.

The first and second budgets of the League.

Relief in Central Europe and methods and measures to combat the spread of typhus.

Eugen and Malmedy (M. Da Cuhna's report approving the plebiscite

which gave these provinces to Belgium.)

Relations between Council and the Assembly.

Following the Assembly's action on these matters, Secretary Sir Eric Drummond will report in detail on the present organizations and work of the League Secretariat, and the resolution of the Council which established the seat of the League at Geneva.

The next subject that will be dealt with will be the Root-Phillimore International Court of Arbitration. Inasmuch as several European nations are as opposed to the unlimited powers of the court, as the United States to the unqualified Article Ten of the Covenant, considerable debate is anticipated before the court's constitution is finally approved.

The big question in the minds of many anti- and pro-league partisans is: Shall the court be subservient to the League Council or shall the League Council be powerless to modify or change any decisions arrived at by the Court?

The other questions, on the tentative agenda, and the order in which they will be taken up are:

The establishment of a Permanent Health organization.

An organization to deal with international communications and transit questions.

A tribunal to attend to the settlement of differences referred to in various articles of the Versailles treaty.

The relations between Technical organizations and the Council and Assembly of the League.

Recommendations of the International Financial conference.

Preparations required to enable the economic weapon of the League to be used in case of necessity.

The report of the Statistic Commission.

The Liquor Trade in Africa.

Supervision over the execution of agreements reached with regard to the traffic in women and children.

Supervision of traffic in arms and ammunition and its control.

TRAMPED ON THE DESPOT'S TOES

Every red-blooded American should study carefully the text of the communication sent by President Wilson to Mr. Harding and the reply to the letter. The words of the president are very similar to those he used in the memorable controversy with Mr. Lansing in which Mr. Wilson made it plain that he desired only rubber stamps in his cabinet. Mr. Wilson apparently forgets that he urged the people of Europe not so long ago to speak out their wishes and in his speeches in England and France he had far less regard for the proprieties of international intercourse than was displayed by Mr. Harding.

Mr. Wilson, in view of his proud precedent smashing record, will do well to throw no stones. He should give to Mr. Harding the same rights he claimed for himself when he was going over the heads of the constituted governments of Europe in his wild attempt at a re-alignment of all Europe on a basis of the "fourteen points," the carrying out of which would have plunged all Europe into years of bloody strife.

Mr. Wilson forgets also that Mr. Harding is more than a candidate for the Presidency; that as a member of the United States Senate Foreign Relations Committee he is, or should be if not "ham strung" by a despot, as thoroughly conversant with international affairs as the President himself, and in view of official acts just a little more jealous of American sovereignty.

But Mr. Harding simply tramped on the despot's toes.

PRESIDENT'S COMMUNICATION TO HARDING

The White House

Washington, Oct. 18

"My Dear Sir:

"In the New York Times of yesterday, Sunday, October 17, 1920, I find a statement dated St. Louis, October 16, which purports to report certain public utterances of yours. In it occurs the following:

"Replying to criticisms of his proposal for an association of nations, he said in a rear-platform speech at Greencastle, Ind., that he already had been approached 'informally' by a representative of France, who asked that the United States lead the way to a world fraternity."

"I write to ask if this is a correct quotation and if you really said what is there attributed to you. I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the League of Nations, approached a private citizen of a nation which is not a member of the league with a request 'that the United States lead the way to a world fraternity.'"

"The Department of State has always found the government of France more honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse. I hesitate therefore, to draw inferences to which I have referred unless I am assured by you that you actually made the statement. Very truly yours,

WOODROW WILSON."

HARDING'S REPLY TO PRESIDENT WILSON

Marion, Ohio, Oct. 18

"Dear Mr. President:

"I have before me a press copy of your letter of this date, thought I am not in receipt of the original copy. I am glad to make a prompt reply. It is very gratifying that you hesitate to draw inferences without my assurance that I am correctly quoted. The quotation as reported in your letter is not exact. The notes of the stenographer reporting my remarks quotes me as saying, 'France has sent her spokesman to me informally asking America, in its new realization of the situation, to lead the way for an association of nations.'

"I am sure that my words could not be construed to say that the French government had sent anybody to me. The thought I was trying to convey was that there had come to me those who spoke a sentiment which they represented to be very manifest among the French people but nothing could suggest the

French government having violated the proprieties of international relations. Official France would never seek to go over your high office as our chief executive to appeal to the American people or any portion thereof.

"I can see no impropriety in private citizens of France, or in Americans deeply friendly to France, expressing to me their understanding of sentiment in that friendly republic.

"It is not important enough to discuss, perhaps, but I very respectfully urge that an informal expression to me is rather more than that to a private citizen. I hold a place as a member of the foreign relations committee of the United States Senate, which is charged with certain constitutional authority in dealing with foreign relations and I am necessarily conscious that I am the nominee of the Republican party for President of our republic. In the combination of these two positions, it ought not to be unseemly that some very devoted friends of a new and better relationship among nations, no matter whence they come, should wish to advise me relating to aspirations to co-operate with our own republic in attaining that high purpose. Let me assure you again of the observance of all the proprieties and again assert that the French government has maintained that great respect for your position to which I myself subscribe. With great respect, I am, very truly,

WARREN G. HARDING"

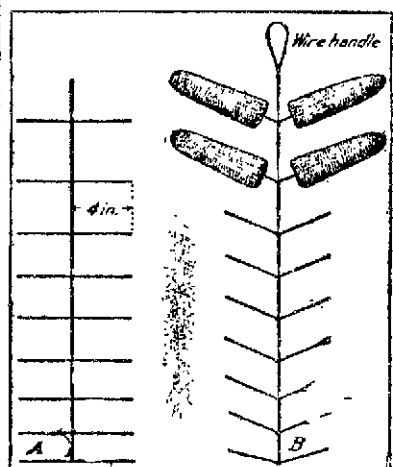

SIMPLE AND DURABLE RACK FOR SEED CORN

Can Be Made From Small Piece of Welded Fence Wire.

As Near Mouseproof as Any Device Can Be Made When Suspended From Ceiling and Affords Ample Air Circulation.

A simple and durable rack for storing and drying seed corn can be made from a small piece of welded wire fence. This rack when suspended on a wire from the ceiling is as near mouseproof as any such device can be made, and affords ample space for circulation of air. As only about eight inches of fence including one upright wire is required per rack, a large number of them may be made at a very small cost.

To make one of these devices cut the lateral wires of the fence four

Homemade Seed Corn Rack.

inches from an upright wire and on both sides of it. Sharpen the ends of the lateral wires and bend them slightly upward so that the ears of corn will not slide off. A piece of hay wire can be attached to the upper end forming a handle. Some fences are made with the lower wires so close together that it may be necessary to cut off every other one to keep the ears from touching and to allow good air circulation.

Paradox of Rail Wear.

In a single track line railroad the wear on the rails is seldom greater, and is frequently less, than in a double-track line, says the Scientific American, an apparent paradox which is probably explained by the reversal of direction of traffic, which tends to neutralize coldrolling actions in the surface of the rail-head.

Lake's Peculiar Migration.

Near Valdosta, in Georgia, there is a lake three miles long and three-quarters of a mile wide, with an average depth of twelve feet or water, which disappears every three or four years and then comes back again. It disappears into natural subterranean passages, taking two or three weeks in the process and leaving a beautiful sandy basin. After a month or so the water begins to come back, and in a couple of weeks it is the same old lake.

Peculiar Chinese Music.

Chinese music is not written. The words of some of the famous songs have been preserved, but the music has been handed down from father to son for generations and goes far back before the day of the troubadours. When music is played it is played according to the memory of the musician and his ideas of interpretation. A musician varies the performance as his judgment dictates and the strings, reeds or brass may break in almost any time.

To Measure Molasses.

Grease the measuring cup before measuring molasses or syrup and the ingredients will not stick to the sides of the cup. Thus there will be no waste.

Couldn't Be Supposed to Know.

I helped my little niece on her tricycle over a crossing by taking hold of the front part of the tricycle and lifting it onto the sidewalk, writes a correspondent. She explained that that was not the right way to do it; I should have pulled her up by the handle, and then, with a sweet desire to find an excuse for my ignorance, she quickly added: "But, of course, you wouldn't know how, because you are not the mother of a child."

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat scours and forms acid in stomach, or you are bilious, constipated, nervous, yellow and can't get feeling just right begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste gases and bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

IT IS FACT

and not theory, that every drop of rich, nourishing

Scott's Emulsion

is readily utilized by the system in building up strength.

The man who's ahead

Somehow you never hear of a really well-dressed man buying his clothes strictly on a price basis. The man who wears well-tailored clothes, however, doesn't pay any more for his clothes than the man who wears almost correctly tailored clothes but goes at his buying economy from a different angle.

The man who says tailoring is foremost is always ahead in the end. He looks better; and, naturally, his clothes are smarter and a real asset to his appearance; and in the case of

Stein-Bloch
Smart Clothes

which we sell, they give a service that puts their cost on a very low level.

It's also well to consider the simplicity, yet alertness, of style about Stein-Bloch clothes.

THE OLD KNOCKER KNOCKS

In every small town there is a tough old knocker who likes to knock with pride to the fact that Tommy Brown was the worst boy in town, now a preacher, and that Willie Green was the best boy in school, now in the army.

Transvaal Hymn

The words and music of the Transvaal national hymn were composed by a Dutch woman in Mrs. Catharine F. B. van Rens.

SHALL GIRLS BE ADMITTED?

Membership Question Looms Before Officials of Legion—Some Young Workers Present Claims.

At a meeting held in the hall of the American Legion, the officials of the legion were called to order by the president, who stated that the question of admitting girls to the legion was a matter of great importance.

The president stated that the legion was a place where boys could learn the virtues of patriotism and loyalty, and that it was a place where they could learn the art of self-defense.

He stated that the legion was a place where boys could learn the art of self-defense, and that it was a place where they could learn the art of self-defense.

When Shall I Buy My Winter's Bedding? Where Shall I Buy My Winter's Bedding?

We can answer both questions—and we believe—our answer will prove the best and most satisfactory solution to your bedding problem.

When? NOW! This week quantities are greater than we may expect them to be later on. Buy now and choose from full stocks while there's ample to offer varied choosing.

Where? ROSS & WOODS! Because you have the assurance that whatever you buy here will be good—and worth whatever you pay. We also have some very good reasons to believe that you may buy some mighty good blankets and comforters for as little as you'd pay elsewhere. We KNOW you won't have to pay more, so again we say—

BUY BEDDING THIS WEEK—BUY IT AT ROSS & WOODS!

Warm Friendly Blankets Attractive Comforters

Gray Cotton Blankets at \$3 Pr.

These are a light weight blanket—51x76—good and warm. Come in gray only.

Gray Cotton Blankets at \$3.50 Pr.

Another light weight blanket—61x80—but a better made blanket.

Gray Cotton Blankets at \$3.75 Pr.

Full bed size—61x76—a heavier blanket and nearly as warm as wool.

Nashua Woolnap Blankets at \$7.50 Pr.

It's a warm wool blanket—full 61x76—hard to tell it from wool. White bound in pink.

Nashua Woolnap Blankets at \$8 Pr.

We doubt very much if you'll find them equal anywhere at the price. Warm and friendly—60x80—and come in gray, white and plaid.

Mashua Woolnap Blankets at \$9 Pr.

Those big Scotch plaids—66x80—and a blanket that will keep you warm at nights.

Genuine Wool Blankets at 10 and \$12 Pr.

These are a blanket that are good to slip under on real cold nights. Full bed size and worth more than we ask.

Maish Comforters at 5 to \$11.

We have a great showing of these Maish comforters. There is a goodly variety from which to choose, and the prices are very moderate. All are full double bed size.

Mashua Woolnap Blankets at \$9 Pr.

These are a blanket that are good to slip under on real cold nights. Full bed size and worth more than we ask.

Maish Comforters at 5 to \$11.

We have a great showing of these Maish comforters. There is a goodly variety from which to choose, and the prices are very moderate. All are full double bed size.

SAY MEN!

Isn't It Great?

THIS HOSPITAL DRIVE?

Listen to this! Last night the workers started: One man had in his list homes at which he thought it absolutely useless to stop, but he was a thorough worker and naturally wanted to give the people in it a chance to show the Hospital emblem in their window.

He only got as far as the door because they were ready for him and what do you think he got---\$20.00. Twenty dollars and he didn't expect a single cent. How's that?

And then the same man followed on up through his block---found everybody ready to do their part. All waiting for the solicitor to call. All, it seems, realizing the importance and wants of this Hospital. All realizing that it will be THEIR Hospital when it's finished.

But this solicitor got the shock of his life just before he finished his night's work. He called at one home where he MENTALLY saw about \$5.00. He came out of that home with just \$40.00.

The people in it had used the Hospital and KNEW its value and were ready. Everybody is ready to give. Clearfield and Clearfield County citizens want the Hospital and they are willing to pay for it. But there are still many more workers needed to finish this job.

Won't you give just a little of your time to-night? Get right in touch with your ward chairman or phone Hospital headquarters, Murray Bldg., and they'll put you to work. It's a big job for real men but each additional worker makes the job just that much less.

And when you contribute, **SHOW YOUR EMBLEM. MAKE YOUR BLOCK 100 PER CENT. FOR THE HOSPITAL.**

Help your solicitor, by being like these people whom we mentioned in this space---**BY BEING READY FOR HIM.**

Smile when he calls, and then "Give Big." This great cause, so vitally important to you and yours, must have the support of everyone if the goal is to be attained and Clearfield and Clearfield County are to have adequate hospital service.

S-A-Y! Have You Tasted McCarty's

Peanut Brittle

It's the one I have named YANKEE. I'm making it fresh every day and from the more than enthusiastic reports I'm getting from it, I'll soon have to be making it twice a day.

You know it's made from pure cane sugar and lots of those sweet little Spanish peanuts.

We're putting it up in special pound boxes. Why not get a box tonight?

McCARTY'S

Origin of Dollar Mark.
Some claim that it is a modification of the English symbol (£) for the pound. Another explanation is that it came from the letters U. S. written over the other. Yet another theory is that the two upright marks represent two pillars of brass before the temple of Solomon, which early appeared on our coins and became intertwined with a scroll.

Worth the Labor Involved.
In the old days, the Centopoda, or horned quadruped dinosaur, provisionally named the Eo ceratops, roamed the Red Deer valley, in Alberta, Canada, and at Stoneyville, 125 miles southwest of Calgary, W. E. Cutler excavated a fine ossified specimen of this huge creature. One side is almost intact. Mr. Cutler had to cut through twelve feet of rock to clear away the skeleton. He had been excavating on this one specimen for eight months.

Order Your Hallowe'en Candy

The earlier we get your order for Hallowe'en candy you know, the home-made kind—the surer you are of getting it on time. We're booking lots of them right now and they're coming in fast.

If you want to serve the dearest of candies at your Hallowe'en party get your order in for Stewart's home-made tomorrow.

Hunting New Pearl Beds.

The pearl fishermen of the Orient and of the South sea are hunting for new beds of pearl oysters. The demand for pearls is so great and the fisheries are being worked so continuously that new pearls do not have time to grow.

DO YOU KNOW WHAT IS THE MATTER?

When You Feel Out of Sorts and See Things With a Dull Eye

LOOK TO YOUR BLOOD

Pale Complexions, Languid Feelings, Lowered Vitality, Need More Red Blood. Take Pepto-Mangan

So many people spend week after week feeling down and out. They never stop to think that something really is the matter. They satisfy themselves by saying, "Oh, I'm not sick. I'll be all right tomorrow."

And tomorrow comes again and again. Still they feel depressed and languid, scarcely able to get around.

If you don't feel like yourself, you are not your self. If you are weak and pale, your blood needs strengthening. You should know about Pepto-Mangan, that famous blood tonic.

Physicians recommend it and prescribe it because it contains just the ingredients needed to make red blood. It renews your energy, puts you where you ought to be. Begin with it today. Get the tablets if they will be more convenient to take than the liquid. Both have the same medicinal properties. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name "Gude's Pepto-Mangan" is on the package. Advertisement.

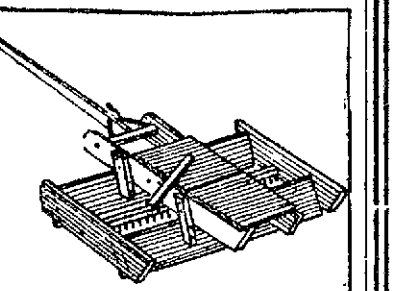

HOME-MADE FLOAT OR CLOD CRUSHER HANDY

Device Does Satisfactory Work on Very Lumpy Soil.

Illustration Gives Good Idea of Construction of Implement Which Can Be Put Together at Small Cost—It Kills Weeds.

It sometimes happens that land gets very lumpy or full of clods and, to get the best results, these clods should be mashed or ground up. To do this a home-made clod crusher will be found to do the work in a most satisfactory manner.

The accompanying drawing shows how such a crusher can be made at home with but slight expense. It is made by taking two two by eight

Float or Clod Crusher.

pieces eight feet long and spiking two by six pieces on the ends and also on top. To save a little expense a sled tongue can be used, and will answer just as well as to make one. A four by four piece is placed between the floats and is held in place by lag screws in each end. This piece should have teeth inserted into its lower side which are made from five-sixteenths inch round iron, and should stick out about two and one half inches. Holes should be bored into the four by four, slightly smaller than the iron, and should slant backward. A lever can be bolted to this piece, which by moving front or back will press the teeth more or less into the soil. There could be a seat put onto it, but it is better to stand up, as by so doing, if any rubbish gets under it, a step forward will raise the hind end and let the obstruction out, says a writer in The Farmer. This machine is also a fine thing to go over a corn field just before the corn comes up and will kill more weeds than a drag.

IMPORTANCE OF MALE BIRDS

Exert Much Influence in Producing Qualities of Offspring—Two Classes of Hens.

Doctor Pearl, formerly of the Maine experiment station, makes mention of the fact that among the high producing hens there are two classes, one class having the ability to transmit their high laying qualities to their daughters, and the other class being poor breeders. It simply amounts to the selection by means of the trap nest of the high layers. These in turn are mated to sons of high layers and the progeny of the mating is again tested as to egg production. It is agreed by the most careful observers that the male bird exerts a very important influence in the producing qualities of the offspring, and that a good hen mated to a poor male would likely give very indifferent results.

DAY FOR DIGGING POTATOES

Quality Is Influenced to Considerable Extent by Manner in Which They Are Dug.

The table quality of potatoes is influenced to a considerable extent by the way they are dug and stored.

Potatoes should be dug if possible, on a clear day, when the soil is not wet enough to cling to them, advises the college. They should be left in the field only long enough to become dry, then stored in a place which is cool and rather moist, and as dark as possible.

Under ordinary home storage conditions, because of the danger of decay, it is not wise to have the potatoes more than two and one-half or three feet deep, either in a pile or in a box, says an agricultural college potato man.

FLOOR OF PORTABLE HOUSES

It Should Be at Least One Foot From Ground, Open and Free—Cement Baffles Rate.

Floors of portable poultry colony houses should be at least one foot from the ground, and the space underneath should be open and free. Permanent brooder houses should have cement floors, and the doors and windows should be screened with one-inch mesh wire fencing. If such precautions are taken, rats and weasels usually do little damage.

SALT PREVENTS INDIGESTION

Used by Experienced Shepherds in Changing Sheep From Old Pasture to New.

Many experienced shepherds mix salt with air-shaken lime, a little more lime than salt to prevent indigestion and bloat when the sheep are changed to new pastures. On some farms tobacco stems are dipped in a strong salt brine and go additional salt is given to the sheep. This helps to control parasitic infection and is beneficial to the ewes and lambs.

Mrs. Fred Burchfield and daughter, Ruth, have returned from visiting relatives in Huntingdon and Philipburg.

SEVEN KILLED IN WRECK AT ERIE PA.

PASSENGER TRAINS IN HEAD ON COLLISION

ERIE, October 20—Seven known dead and five injured, four believed to be fatally hurt, was the toll of the wreck 200 feet west of the Union depot on the New York Central lines at 10:45 o'clock, Eastern Standard Time. The train No. 60, each bound, crashed through an open switch into train No. 23, a west bound passenger train.

A railroad investigation will be held tonight by the Division Superintendent to fix the blame if possible. Two of the dead have been identified, and some of the injured are able to give their names for identification. Three women and a girl have been identified.

The dead are:

Pasquid De Schampo, of Missoula, Mont.

Alvin Carlson, a boy of 18, Sebaska, Minn.

The injured are:

Mrs. D. L. Secord, Chicago; Elmer Forsmack, Sweden; Walter A. Richardson, colored, of New York city; Mrs. Jack Hanson, of Seattle, Washington, seriously injured and John W. Andrus of Buffalo.

CHARGES SINN FEIN WITH TREASON

LONDON, October 20—Sir Greenway, chief secretary to Ireland charged in the House of Commons today that the Sinn Fein was a highly organized society to destroy the British empire.

NEED POKER SHARKS ON THIS JURY

CHICAGO, October 20—Whether a man who bets his stack on nines and walks around his chair to change his luck is sane, was the question the jury in the trial of Carl Wanderer, ex-army officer, accused of murder was to decide today. "He bet his stack of chips on a pair of nines," said Bernard Roh, a relative, "and got up and walked around his chair when playing poker."

CARDINAL MAKES SERIOUS CHARGE ON ENGLAND

DUBLIN, October 20—Cardinal Logue preaching to a gathering in St. Patrick's church at Maybooth near here declared in a manditory today that the atrocities committed on the Irish exceed the German atrocities.

GET ADVICE OF FARM AGENT ON BUYING SEEDS

"Several farmers in the county were induced recently to buy high priced seed oats in the hope that they were smut proof and would give unheard of yields. Probably more will be approached in the future.

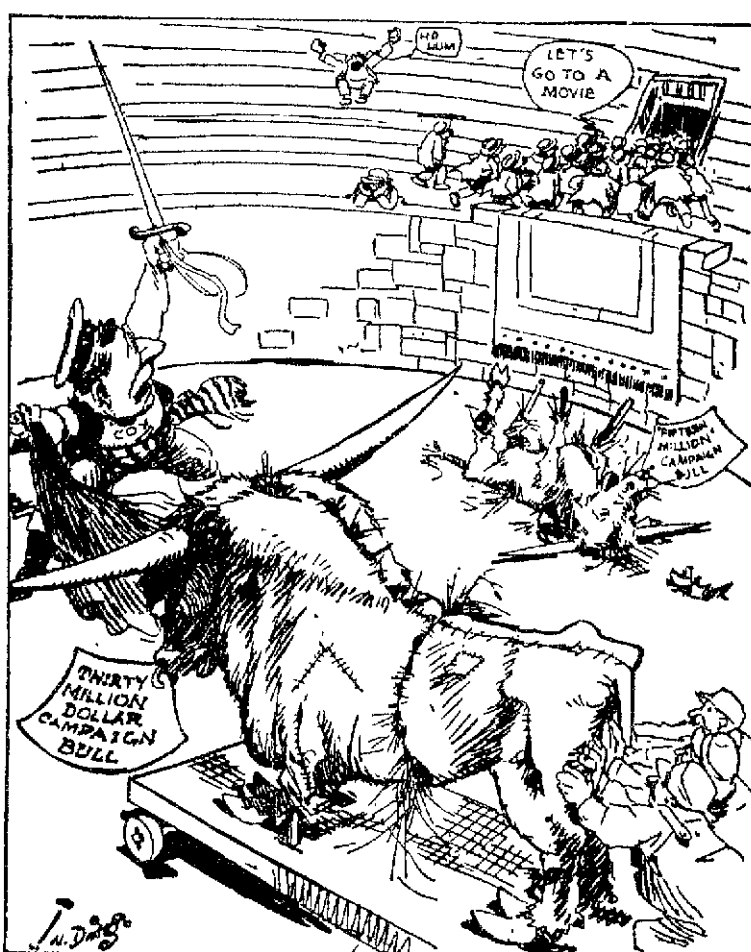

One of the functions of the Farm Bureau is to investigate varieties of grain to determine those best adapted to the county and if any superior varieties existed the County Agent should be one of the first to know about them, especially since he is in close touch with the Agricultural Experiment Station and State and Federal Departments of Agriculture.

Many costly investments in seeds, that are apt to lead to disappointment later, can be avoided if you will get in touch with your County Agent concerning the best practices in crop improvement before spending money for unknown seeds.

CELEBRATE FIFTEENTH ANNIVERSARY

A very pleasant surprise party was rendered John Boyle at his home in Hyde City on Thursday evening, Oct. 14, at being his fiftieth birthday. A sumptuous supper was served at six o'clock, fifty-six relatives and friends being present. Mr. Boyle received many useful gifts, among which was a beautiful rocking chair, presented by all those present. After wishing Mr. Boyle many happy birthdays and saying they never would forget the supper they departed for their homes. Those present from out of town were: Mr. and Mrs. George Conacher and family, Mr. and Mrs. Jack Boyle and son Billy of Dixonville, Mr. and Mrs. George Stager and family, Mr. and Mrs. Stewart Gates of Conlport, W. and Mr. Jess Larrish and family, Mr. and Mrs. Young of Woodland and Bryan Boyle of Altoona.

ENTERTAINMENT IS TO BE FREE HERE TOMORROW EVE

A hospital campaign entertainment will be staged on the Court House steps at 7:30 o'clock tomorrow evening. There will be music by Martin's "Jazzy Six" orchestra, piano music, singing by a male quartet and also a ladies' trio, solo singing, and speaking. The entertainment is in charge of W. F. Turner of the State Highway Department, who volunteered to attend to all details in the interest of the hospital campaign. J. D. Connelly and Street Commissioner Mansfield Graham have arranged for a platform upon which to hold the entertainment, and Leitzinger Bros. have loaned a street piano, the moving of which was voluntarily undertaken by the W. B. Holmes company.

About \$1,000 more was today reported collected for the \$200,000 hospital maintenance, endowment and building fund from the borough of Clearfield, and still "going strong," although scores more team workers are needed both in Clearfield and out in the county in order to put the drive anywhere near the goal.

FIRST LITERARY MEETING OF MODERN PROBLEMS CLUB

The first meeting of the Modern Problems club of Clearfield High school was held the evening of October 19th in C. H. S. The meeting was called to order by the president, Robert Berguson.

The program consisted of several essays, orations and a debate. The members taking part in the program were as follows:

Essay, "First Colonial Congress" —Bernice Anderson
Oration, "Great Chicago Fire" —Ethel Johnson
Essay, "John Brown's Raid" —Dorothy Quinn

Debate: "Resolved that United States Should Have Commerce With Germany."

Affirmative: Dorothy Dimeling, Albert Shugart, Vera Spencer.
Negative: Katherine Vandling, James Mandola, Raymond Otter.

After an effective argument by both sides the judges decided in favor of the affirmative.

At the close of the meeting beneficial criticisms were given by Mr. Rhoads and Mr. Kopp, members of the faculty.

The meeting proved a great success, and was enjoyed by all present.

Mrs. Mable Lawhead and Mrs. Dollie Snook have just returned from a week's visit with friends in Pittsburgh and Johnstown.

BRADFORD TOWNSHIP REPUBLICANS WILL ATTEND THE RALLY

According to reports reaching Clearfield, the Republicans of Bradford township are very much interested in the club meeting to be held here Thursday evening at the Harding-Coolidge club and are busy arranging to be present.

Thursday will be known as Woodland night and a general invitation is extended to the stalwart citizens of old Bradford Township to be present. It is not the intention to feed the Bradfordites upon band music and red fire as it will be remembered that such luxurious capers are left to those with lots of money to spend but rather will it be a meeting of good citizens resolute and determined to end Wilsonism and restore real democracy.

The meeting will be held in the club room unless the size of the crowd makes it imperative to hold an overflow meeting. Ladies are invited but the club can hold out no inducements for them to attend owing to the lack of room in the club. However, our Woodland friend says the Republican women of Bradford are too good Republicans to mind standing room only.

There will be special jitney service from Woodland. The car will leave Woodland at 6:45 o'clock.

SAD DAY COMING FOR THE PITCHERS

(By HENRY R. FARRELL),
(United Press Staff Correspondent)
NEW YORK, Oct. 20.—Beginning with the year 1920, professional baseball should have a batting renaissance.

At just about that time the unintentional tutoring of Babe Ruth will begin to show its effect on the American youth. Kids now at the impressionable age will be beginning to break into box seats of professional baseball and the cards say that a flock of pitchers will begin to yell for a trifle less, lively. Owners of clubs, too, will favor legislation to keep a flock of pellets from leaving the grounds every day. Something new in the way of batting achievements will have to be invented, probably, because home runs should be as common then as ordinary hits are now.

The reason for this dip into prophecy naturally is that everywhere in this broad—except perhaps mentally—land, the ten year old kid is #1.

HARRIS AND UREY ABLY DISCUSS POLITICS AT CLUB

Members of the Harding-Coolidge Club heard two fine addresses last evening on the occasion of the opening of the club activities.

Hon. Frank C. Harris spoke on early party history, comparing and contrasting the platforms and records of the major parties since the civil war. The address bore the earmarks of having been very carefully prepared and from beginning to end it summarized the forlorn hopes and defeated aspirations of the Democratic party from its sponsorship of slavery to free silver. His remarks were much enjoyed. They served to refresh the minds of older people who had not taken the time to recall the many farcical dogmas of that party and to the younger men present it sounded as a warning that a party with an ever changing program was simply an office seeking organization.

John M. Urey, Esq., was the next speaker. He spoke of the present and, began by calling attention to the great honor conferred on both Mr. Cox and Mr. Harding by their selection as candidates; paid high tribute to both men as private citizens and scathingly denounced those few papers and individuals who have been whispering malicious falsehoods regarding the private life and ancestry of the candidates. He stated that no American will condone such methods; that Americans generally have a fine sense of honor and a broad sense of justice which was more than demonstrated by the participation of this nation in the last great war to wipe Kaiserism from the face of the earth. He said that, league or no league, America would have the same spirit of brotherhood to all men but pointed out that entrance into the league would rob us of all freedom of action and make us subject to a super-government, the aims and purposes of which are defined in hazy phrases and the administration of which will be left to we know not who. However, Mr. Urey does not believe that the issue is the league of nations but that Wilsonism is the blight that is killing the fruits of pure Americanism and urges all citizens not to be deceived by the putting forth of maudlin sentimental arguments.

tating Babe Ruth. They've got his swing, his "stance" and even his "waggle."

Just as a caddy develops into a star golfer, simply through conscious or unconscious imitation of the star drive putter, he serves, so are the kids of today going to pick up some of Babe home run methods.

Of course Babe is unusually adapted to heavy clouting, but it is generally admitted that his swing and "follow through" help a lot in gaining distance. No one is more apt in acquiring the cunning of a star than the ten year old boy.

Baseball players just starting their career, should avoid becoming pitchers. In just a few more years the moundmen will be getting their bumps.

Really Nothing New.

In Java is the great temple of Borobodor, temple of the many Buddhas, which was unearthed some years ago, and is known to have been built in the fifth century, and right near it is the lesser temple of Mendoot. Further north, in the Caroline Islands, are the ruins of an ancient city whose streets were waterways just as those of Venice are today. So when visits are made to these virgin islands and one feels almost like a discoverer of new lands it is well to remember that there is nothing new, even under the tropical sun.—Exchange.

What a Real Pearl Is.

The real pearl—that is the fine, spherical, iridescent gem—is not a product of the mother-of-pearl or nautilus, but of the oyster shell, as are the baroque and seed pearls, but is formed in the gills and never grows in size. They begin as a small blister containing a hyaline fluid which condenses slowly and gradually hardens in concentric layers. The iridescence is due to the minute films of air or gas that are contained between the layers.

COX WILL DEMAND NAME OF FRENCH MAN WHO TALKED TO SENATOR HARDING

By HERBERT W. WALKER

En Route with Governor Cox, Providence, R. I.—Governor Cox declared today he would demand that Senator Harding reveal the identity of the person, who representing the French government, asked the Republican candidate to form a new association of nations. Cox will spend a busy day in Rhode Island and will then go to Massachusetts and Connecticut. He will make speeches in Willimantic, Backstone, Manchester, Hartford, Bidgeport and Waterbury.

NEW YORK, October 20—Maurice De Kobia, who Governor Cox intimated was the man who told Senator Harding the French people wished America to lead a movement for a new association of nations today denied that he had ever seen Harding. De Kobia is correspondent for La Liberte, a Paris newspaper.

"I tried to interview Senator Harding for the French newspaper but he refused to see me," De Kobia said. "I even sent him word and asked him to explain his stand on the League of Nations particularly for the French people who are extremely interested in the present campaign. I talked with Cox. I gave him the attitude of the French people as far as I knew it and he explained his stand. I told him I intended to see the Republican nominee. I suppose from that he believed I had seen him," De Kobia said.

LEAGUE OF NATIONS HAS MANY PROBLEMS

Program For Geneva Assembly Includes Admission Of Qualified States

By WEBB C. MILLER

United Press Staff Correspondent
LONDON, Oct. 5 (By Mail)—

Charges that the League of Nations has accomplished nothing during its first ten months of existence will be met when the Assembly of the League meets at Geneva for the initial session, at 11 o'clock on the morning of November 15.

Advance information indicates that a number of days will be required merely to hear of the report of the various commissions which have been authorized by the Council to investigate international questions.

The first meeting probably will be presided over by M. Paul Hymans, of Belgium. Later a permanent president will be chosen by the Assembly to preside for the remainder of the conference.

The first subject on the program is the discussion and adoption of rules of procedure and the appointment of the committee to examine and report on the credentials of the delegates.

Then will come the matter of admission of states not named in the original covenant, and not signatories of the peace treaties. These states who have already qualified for full membership rights will be immediately enrolled in the League.

Then will come the consideration and action of the League Council in the following matters:

The appointment of three members of the Saar Valley boundary commission.

The Saar Basin governing commission.

The appointment of the high commission of Danzig and the approval of the constitution of the Free City.

Responsibilities of the League arising out of the distribution of mandates and the enforcement of Article XXII (on mandates.)

The appointment of Dr. Fridjo Nansen, Arctic explorer, to investigate the problem connected with the repatriation of ex-enemy prisoners from Russia and Germany to their respective countries.

The proposed Commission of Enquiry on Russia (defunct).

The Polish Minority Treaty.

Guarantees of the League.

The resolution regarding the admission of Switzerland.

The establishment of the permanent Commission under Article XI of the Covenant.

The first and second budgets of the League.

Relief in Central Europe and methods and measures to combat the spread of typhus.

Eugen and Malmedy (M. Da Cuhna's report approving the plebiscite

which gave these provinces to Belgium.)

Relations between Council and the Assembly.

Following the Assembly's action on these matters, Secretary Sir Eric Drummond will report in detail on the present organizations and work of the League Secretariat, and the resolution of the Council which established the seat of the League at Geneva.

The next subject that will be dealt with will be the Root-Phillimore International Court of Arbitration. Inasmuch as several European nations are as opposed to the unlimited powers of the court, as the United States to the unqualified Article Ten of the Covenant, considerable debate is anticipated before the court's constitution is finally approved.

The big question in the minds of many anti- and pro-league partisans is: Shall the court be subservient to the League Council or shall the League Council be powerless to modify or change any decisions arrived at by the Court?

The other questions, on the tentative agenda, and the order in which they will be taken up are:

The establishment of a Permanent Health organization.

An organization to deal with international communications and transit questions.

A tribunal to attend to the settlement of differences referred to in various articles of the Versailles treaty.

The relations between Technical organizations and the Council and Assembly of the League.

Recommendations of the International Financial conference.

Preparations required to enable the economic weapon of the League to be used in case of necessity.

The report of the Statistic Commission.

The Liquor Trade in Africa.

Supervision over the execution of agreements reached with regard to the traffic in women and children.

Supervision of traffic in arms and ammunition and its control.

STOCK PRICES

TRAMPED ON THE DESPOT'S TOES

Every red-blooded American should study carefully the text of the communication sent by President Wilson to Mr. Harding and the reply to the letter. The words of the president are very similar to those he used in the memorable controversy with Mr. Lansing in which Mr. Wilson made it plain that he desired only rubber stamps in his cabinet. Mr. Wilson apparently forgets that he urged the people of Europe not so long ago to speak out their wishes and in his speeches in England and France he had far less regard for the proprieties of international intercourse than was displayed by Mr. Harding.

Mr. Wilson, in view of his proud precedent smashing record, will do well to throw no stones. He should give to Mr. Harding the same rights he claimed for himself when he was going over the heads of the constituted governments of Europe in his wild attempt at a re-alignment of all Europe on a basis of the "fourteen points," the carrying out of which would have plunged all Europe into years of bloody strife.

Mr. Wilson forgets also that Mr. Harding is more than a candidate for the Presidency; that as a member of the United States Senate Foreign Relations Committee he is, or should be if not "ham strung" by a despot, as thoroughly conversant with international affairs as the President himself, and in view of official acts just a little more jealous of American sovereignty.

But Mr. Harding simply tramped on the despot's toes.

PRESIDENT'S COMMUNICATION TO HARDING

The White House

Washington, Oct. 18

"My Dear Sir:

"In the New York Times of yesterday, Sunday, October 17, 1920, I find a statement dated St. Louis, October 16, which purports to report certain public utterances of yours. In it occurs the following:

"Replying to criticisms of his proposal for an association of nations, he said in a rear-platform speech at Greencastle, Ind., that he already had been approached 'informally' by a representative of France, who asked that the United States lead the way to a world fraternity."

"I write to ask if this is a correct quotation and if you really said what is there attributed to you. I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the League of Nations, approached a private citizen of a nation which is not a member of the league with a request 'that the United States lead the way to a world fraternity.'"

"The Department of State has always found the government of France more honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse. I hesitate therefore, to draw inferences to which I have referred unless I am assured by you that you actually made the statement. Very truly yours,

WOODROW WILSON."

HARDING'S REPLY TO PRESIDENT WILSON

Marion, Ohio, Oct. 18

"Dear Mr. President:

"I have before me a press copy of your letter of this date, thought I am not in receipt of the original copy. I am glad to make a prompt reply. It is very gratifying that you hesitate to draw inferences without my assurance that I am correctly quoted. The quotation as reported in your letter is not exact. The notes of the stenographer reporting my remarks quotes me as saying, 'France has sent her spokesman to me informally asking America, in its new realization of the situation, to lead the way for an association of nations.'

"I am sure that my words could not be construed to say that the French government had sent anybody to me. The thought I was trying to convey was that there had come to me those who spoke a sentiment which they represented to be very manifest among the French people but nothing could suggest the

French government having violated the proprieties of international relations. Official France would never seek to go over your high office as our chief executive to appeal to the American people or any portion thereof.

"I can see no impropriety in private citizens of France, or in Americans deeply friendly to France, expressing to me their understanding of sentiment in that friendly republic.

"It is not important enough to discuss, perhaps, but I very respectfully urge that an informal expression to me is rather more than that to a private citizen. I hold a place as a member of the foreign relations committee of the United States Senate, which is charged with certain constitutional authority in dealing with foreign relations and I am necessarily conscious that I am the nominee of the Republican party for President of our republic. In the combination of these two positions, it ought not to be unseemly that some very devoted friends of a new and better relationship among nations, no matter whence they come, should wish to advise me relating to aspirations to co-operate with our own republic in attaining that high purpose. Let me assure you again of the observance of all the proprieties and again assert that the French government has maintained that great respect for your position to which I myself subscribe. With great respect, I am, very truly,

WARREN G. HARDING"

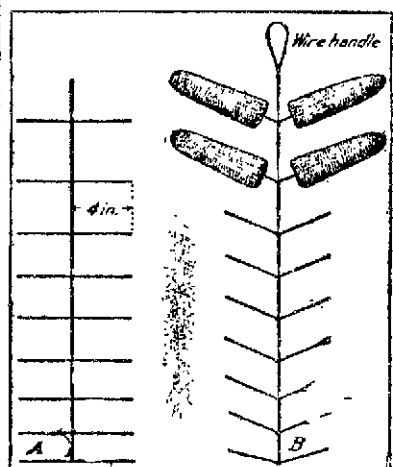

SIMPLE AND DURABLE RACK FOR SEED CORN

Can Be Made From Small Piece of Welded Fence Wire.

As Near Mouseproof as Any Device Can Be Made When Suspended From Ceiling and Affords Ample Air Circulation.

A simple and durable rack for storing and drying seed corn can be made from a small piece of welded fence wire. This rack when suspended on a wire from the ceiling is as near mouseproof as any such device can be made, and affords ample space for circulation of air. As only about eight inches of fence including one upright wire is required per rack, a large number of them may be made at a very small cost.

To make one of these devices cut the lateral wires of the fence four

Homemade Seed Corn Rack.

inches from an upright wire and on both sides of it. Sharpen the ends of the lateral wires and bend them slightly upward so that the ears of corn will not slide off. A piece of hay wire can be attached to the upper end forming a handle. Some fences are made with the lower wires so close together that it may be necessary to cut off every other one to keep the ears from touching and to allow good air circulation.

Paradox of Rail Wear.

In a single track line railroad the wear on the rails is seldom greater, and is frequently less, than in a double-track line, says the Scientific American, an apparent paradox which is probably explained by the reversal of direction of traffic, which tends to neutralize charring actions in the surface of the rail-head.

Lake's Peculiar Migration.

Near Valdosta, in Georgia, there is a lake three miles long and three-quarters of a mile wide, with an average depth of twelve feet or water, which disappears every three or four years and then comes back again. It disappears into natural subterranean passages, taking two or three weeks in the process and leaving a beautiful sandy basin. After a month or so the water begins to come back, and in a couple of weeks it is the same old lake.

Peculiar Chinese Music.

Chinese music is not written. The words of some of the famous songs have been preserved, but the music has been handed down from father to son for generations and goes far back before the day of the troubadours. When music is played it is played according to the memory of the musician and his ideas of interpretation. A musician varies the performance as his judgment dictates and the strings, reeds or brass may break in almost any time.

To Measure Molasses.

Grease the measuring cup before measuring molasses or syrup and the ingredients will not stick to the sides of the cup. Thus there will be no waste.

Couldn't Be Supposed to Know.

I helped my little niece on her tricycle over a crossing by taking hold of the front part of the tricycle and lifting it onto the sidewalk, writes a correspondent. She explained that that was not the right way to do it; I should have pulled her up by the handle, and then, with a sweet desire to find an excuse for my ignorance, she quickly added: "But, of course, you wouldn't know how, because you are not the mother of a child."

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat scours and forms acid in stomach, or you are bilious, constipated, nervous, yellow and can't get feeling just right begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste gases and bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

IT IS FACT

and not theory, that every drop of rich, nourishing

Scott's Emulsion

is readily utilized by the system in building up strength.

The Photo Illustration

The man who's ahead

Somehow you never hear of a really well-dressed man buying his clothes strictly on a price basis. The man who wears well-tailored clothes, however, doesn't pay any more for his clothes than the man who wears almost correctly tailored clothes but goes at his buying economy from a different angle.

The man who says tailoring is foremost is always ahead in the end. He looks better; and, naturally, his clothes are smarter and a real asset to his appearance; and in the case of

Stein-Bloch
Smart Clothes

which we sell, they give a service that puts their cost on a very low level.

It's also well to consider the simplicity, yet alertness, of style about Stein-Bloch clothes.

When Shall I Buy My Winter's Bedding? Where Shall I Buy My Winter's Bedding?

We can answer both questions—and we believe—our answer will prove the best and most satisfactory solution to your bedding problem.

When? NOW! This week quantities are greater than we may expect them to be later on. Buy now and choose from full stocks while there's ample to offer varied choosing.

Where? ROSS & WOODS! Because you have the assurance that whatever you buy here will be good—and worth whatever you pay. We also have some very good reasons to believe that you may buy some mighty good blankets and comforters for as little as you'd pay elsewhere. We KNOW you won't have to pay more, so again we say—

BUY BEDDING THIS WEEK—BUY IT AT ROSS & WOODS!

Warm Friendly Blankets Attractive Comforters

Gray Cotton Blankets at \$3 Pr.

These are a light weight blanket—51x76—good and warm. Come in gray only.

Gray Cotton Blankets at \$3.50 Pr.

Another light weight blanket—61x80—but a better made blanket.

Gray Cotton Blankets at \$3.75 Pr.

Full bed size—61x76—a heavier blanket and nearly as warm as wool.

Nashua Woolnap Blankets at \$7.50 Pr.

Here's a warm wool blanket—full 61x76—hard to tell it from wool. White bound in pink.

Nashua Woolnap Blankets at \$8 Pr.

We doubt very much if you'll find them equal anywhere at the price. Warm and friendly—60x80—and come in gray, white and plaid.

Mashua Woolnap Blankets at \$9 Pr.

Those big Scotch plaids—66x80—and a blanket that will keep you warm at nights.

Genuine Wool Blankets at 10 and \$12 Pr.

These are a blanket that are good to slip under on real cold nights. Full bed size and worth more than we ask.

Maish Comforters at 5 to \$11.

We have a great showing of these Maish comforters. There is a goodly variety from which to choose and the prices are very moderate. All are full double bed size.

Safeguardino Inspection
 IN ORDER to avoid dispute whenever grain is inspected by the state or boards of trade, the sample taken from the car is divided into two homogeneous halves by the means of an ingenious separator into which the sample is poured. These reserve portions are kept for several months and in case of export they prove invaluable.

A Fable With A Lot of Truth In It

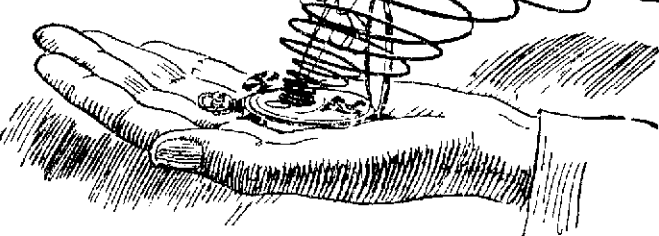

Once upon a time, there was a tired business man who felt the need of recreation. He took the recreation but his wife "got next"—he didn't do anything so awfully bad but still F. W. was sore. He finally got things patched up by bringing her here for dinner.

Did he make good? Ask his wife. Now, the T. B. M. knows how to get away with a good time without resorting to the "sick friend" story.

He brings his wife to dinner at

The Dimmeling

The Spring in Your Watch

"W"hen a watch opens, his Christmas watch, with his pocket knife to see the wheels go round, and I will look at it the same way. It is not the same as the watch in an antique store, but it is a watch that has been in the hands of a man who has lived a full life. It is a watch that has been in the hands of a man who has lived a full life. It is a watch that has been in the hands of a man who has lived a full life.

Substitute for Gold
 What is said to be a serviceable substitute for gold is obtained by combining 94 parts of copper with six parts of antimony and adding a little magnesium carbonate to increase the weight. It is said that this alloy can be drawn wrought and soldered very much like gold and that it also receives and retains a golden polish.

Superstitions of Siam.

In Siam all babies receive the same name at birth. This name is Dong, which means red and it is the only designation for some months. At birth a cord is tied to the child's feet and the outside of the house and three balls of rice are thrown in lucky directions.

Oh, Boy, Where'd You Get the New Car

That's What a Man Asked Another Fellow Who'd Had Us Re-Finish His Old Car

How could he have got away with the idea of having a new car? He could have pawned the old job off for a new one. When he brought the old job down to us, he wondered whether we could just touch it up a little so that he could get by for another season.

But when he ran the newly finished job out of the shop, we were sure that he was just as proud of it as he was the first day he ran the car home for his wife to see. Come in and talk over getting your car re-finished before you store it for the winter.

Nothing Short Of Remarkable

Tanlac is Certainly One Grand Medicine Says Pittsburgh Man After It Overcame Troubles

"The three bottles of Tanlac I've already taken have made me feel like a brand new man," said Isaac M. Mony, of 410 Penn. Ave., Pittsburgh, Pa.

"For the past several months I was crippled up with rheumatism in my shoulders and knees, so that it was difficult for me to get around and do my work. I was so stiff and aching in my joints I felt unfit for anything."

"My appetite was very poor and after eating I would bloat terribly and have a burning sensation like fire in the pit of my stomach. I was also troubled with an abscess on my back that hurt me terribly."

"My head ached terribly and my nerves became so upset that I would roll and toss from side to side of the bed nearly all night getting very little sleep and I always felt tired and worn out. My first bottle of Tanlac helped me so much that I kept it up and the results are nothing short of remarkable."

"There's not a sign of rheumatism left in my shoulders and legs now. My back has also stopped hurting, and I can get around like a sixteen-year-old boy. My appetite has come back in full force and I can eat most anything I want."

"I have already picked up wonderfully in strength and am still getting stronger. Tanlac is certainly one grand medicine and anyone suffering as I did will do well to give it a trial."

Tanlac is sold by all leading druggists.

A Tonic and Health Builder

Remove that worrying cough or cold with Clever's (the calcium tablet). They give strength to combat illness, the boxes of 100 tablets or 500 tablets. LEKMAN LABORATORY, Philadelphia. Manufactured by L. Lekman & Co. in U.S.A.

ANY man or woman who would not labor beyond their strength in any other business, but to test to overcome the eye. After taking eye-light begins to fail they continue to use it. Here you will find complete scientific examination, correct prescription and vision restoration at such a moderate figure that you must not longer continue the disastrous delay.

C. C. ARNOLD

For Biliousness

Sick Headache, Sour Stomach, Bloating, Gas, Constipation—all these distressing consequences of indigestion are avoided if the bowels are kept open and regular.

FOLEY CATHARTIC TABLETS

act promptly, without pain or nausea. They clear the bowels, sweeten the stomach and tone up the liver.

F. R. Whitehouse, R. F. D. 1, Norfolk, Va. Foley Cathartic Tablets have done me more good than any medicine I ever used.

The AMERICAN LEGION

LOS ANGELES POST GIRL MEMBERS WHO MADE HIGH SCORES

Sergeant Mildred Mobley, Marine corps, and Yeoman (f) First Class Pearl Boham, both members of the Los Angeles post of the American Legion, made high scores in the "getting their name on the dotted line" competition in the post's recent membership drive which brought in 1,200 new members. They had their station beside a sign board in front of the post club.

PARADISE

First Hu ton has moved his family to Reedville.

Many people out of the apple crop are making some big kettle of apple butter like our patients used to make. It looks like old-fashioned to us, but they say it is the best of the orchard.

Mr. and Mrs. Isaac Poole, Jr. and family will visit Mr. Isaac Poole, Melrose, Pa., on Sunday.

Dye It Right!

"Diamond Dyes"

Don't Risk Material in Poor Dyes that Fade or Run

A full package of "Diamond Dyes" contains directions so simple that any woman can dye her own hair, fabric, or even her own skin. The result is a permanent color, whether you wish to dye your hair, your skin, or your fabric.

"Diamond Dye" is the only dye that can be used on all materials and it will not fade or run.

Price 60c at all dealers. Don't smile, ask for a kidney remedy, get from Kidney Pills the one that Mr. Wagner had. For sale at Milburn Co., Buffalo, N. Y.

The Pine Cone.
 So hard is the cone of a pine in our western forests that the imprisoned seeds cannot be propagated in the ordinary way. The best way is to burn the cone over a fire until it bursts, when the seeds escape. Forest fires give these cones their chance.

Moto Runs in Water.
 An Englishman has invented a centrifugal pump directly connected with an electric motor that runs equally well either in or out of water.

Awkward.
 It is awkward when you didn't hear the comedian say "I am not a comedian" and then you are not a comedian to explain the joke. — Louisville Courier-Journal

Cupid's "Shift."
 A housewife in town a complaint sounds a bit weird and dark; but that at least was the first trip made by bride and bridegroom after the church ceremony. The bridegroom was a complaint number and his new wife had never been down a complaint or even seen one till the wedding day. At her own request they went from the church directly to a suitable attire, stepped into the cage and were taken to the bottom of the shaft, where they had a rousing reception from miners armed with pick and shovel.

HAPPY WOMEN
 Plenty of Them in Clearfield and Good Reason for It

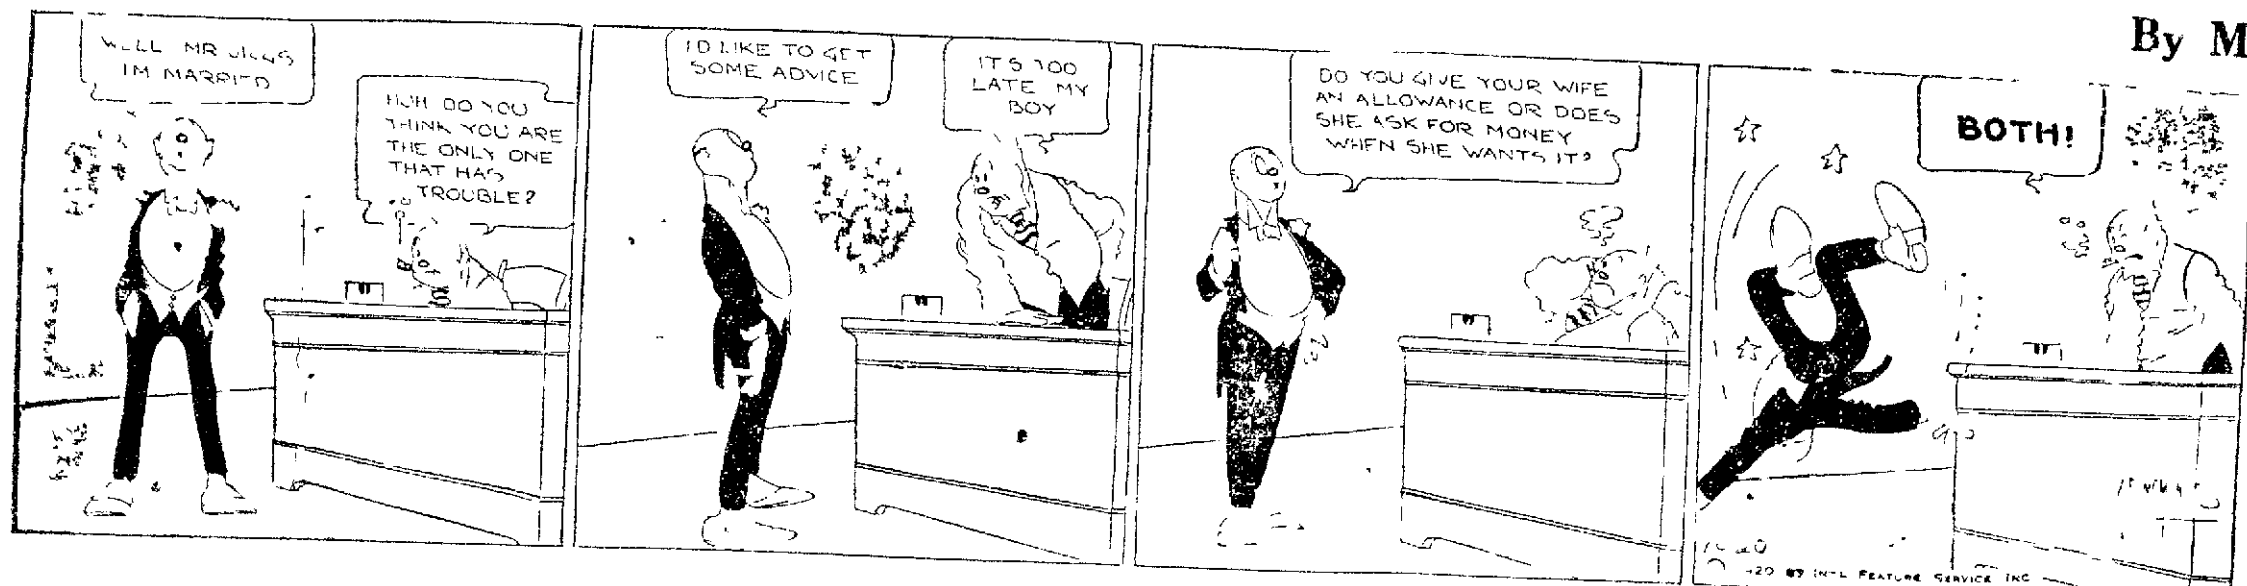

Wouldn't any woman be happy. After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, When he finds freedom.

Many readers will profit by the following:

Mrs. L. F. Wagner, 214 River St., Clearfield, Pa., says: "For sometime I have been using Doan's Kidney pills and they have always benefited me. I have been troubled at times with severe pains in the small of my back. When I would lay down I could hardly get up again and I could not bend over. I have had the same trouble for years. Doan's Kidney pills relieve the condition and free me of the backache and headache. Others of my family have used Doan's and always find the same good result."

Price 60c at all dealers. Don't smile, ask for a kidney remedy, get from Kidney Pills the one that Mr. Wagner had. For sale at Milburn Co., Buffalo, N. Y.

SAY MEN!

Isn't It Great?

THIS HOSPITAL DRIVE?

Listen to this! Last night the workers started: One man had in his list homes at which he thought it absolutely useless to stop, but he was a thorough worker and naturally wanted to give the people in it a chance to show the Hospital emblem in their window.

He only got as far as the door because they were ready for him and what do you think he got---\$20.00. Twenty dollars and he didn't expect a single cent. How's that?

And then the same man followed on up through his block---found everybody ready to do their part. All waiting for the solicitor to call. All, it seems, realizing the importance and wants of this Hospital. All realizing that it will be THEIR Hospital when it's finished.

But this solicitor got the shock of his life just before he finished his night's work. He called at one home where he MENTALLY saw about \$5.00. He came out of that home with just \$40.00.

The people in it had used the Hospital and KNEW its value and were ready. Everybody is ready to give. Clearfield and Clearfield County citizens want the Hospital and they are willing to pay for it. But there are still many more workers needed to finish this job.

Won't you give just a little of your time to-night? Get right in touch with your ward chairman or phone Hospital headquarters, Murray Bldg., and they'll put you to work. It's a big job for real men but each additional worker makes the job just that much less.

And when you contribute, **SHOW YOUR EMBLEM. MAKE YOUR BLOCK 100 PER CENT. FOR THE HOSPITAL.**

Help your solicitor, by being like these people whom we mentioned in this space---**BY BEING READY FOR HIM.**

Smile when he calls, and then "Give Big." This great cause, so vitally important to you and yours, must have the support of everyone if the goal is to be attained and Clearfield and Clearfield County are to have adequate hospital service.

Needs Help

The KITCHEN CABINET

If thou hast friends give them thy best endeavor
Thy warmest impulse and thy purest thought
Keeping in mind and word and action ever
The time is short.

GOOD DISHES FOR THE FAMILY.

If there is one article of our diet which more than another needs careful cooking it is vegetables. The vegetables prepared by the ordinary cook are a byword for all that is tasteless and unappetizing. The mineral salts which we need to keep up the body function are largely thrown down the kitchen sink when draining the vegetables. Putting any vegetable in water is not the best method for its nutrition is largely washed in the water in which it is cooked. Steaming, cooking in a crock or in paper bag does away with this waste.

Irish Stew—Cut up two or three pounds of mutton into serving sized pieces leaving very little fat. Season well with salt and pepper and add six good sized onions peeled and finely chopped, two pounds of potatoes peeled and sliced thin. Add a bunch of herbs, a piece of fat, or any combination liked. Add a cupful of hot water and bake in a covered casserole for an hour or longer.

Sheep Kidneys—Skin the kidneys, split and place on a skewer with a small piece of bacon between each. Season to taste and place across a dripping pan in a hot oven to bake until the bacon is well done.

Eggs a la Bechamel—Cook four eggs in the shell until hard. Drop them into cold water, shell and cut them in halves. Butter a baking dish and add the eggs with a half cupful of cream, pepper and salt to taste with a tiny dust of powdered mace. Bake in a hot oven ten minutes.

Chicken a la Reine—Clean, dress and truss a fowl as for roasting. Rub it well with a cut onion. Place it in a baking pan with a half cupful of good stock, add a sprig of parsley, a bay leaf, a blade of mace and three spring onions tied together. Add a half cupful of cooked rice and let it cook slowly in a moderate oven until the fowl is cooked. Remove the herbs and onions and serve with the broth slightly thickened.

An Old Recipe To Darken Hair

Common Garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

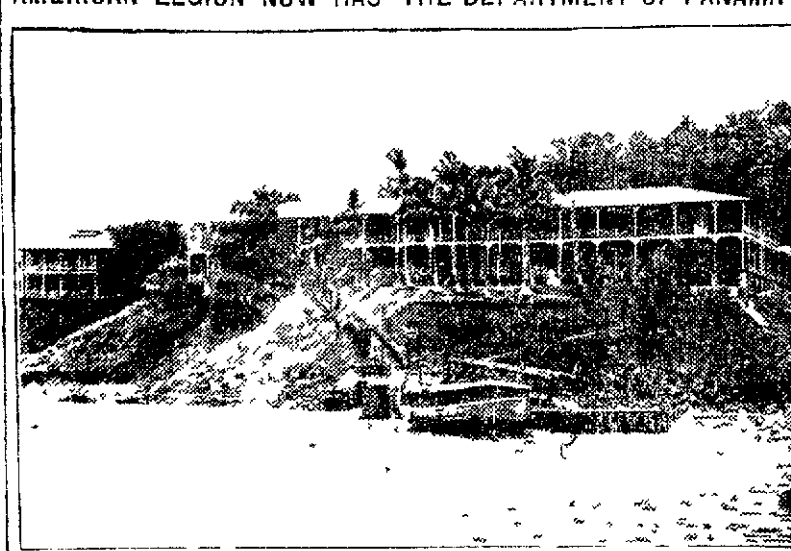

Almost everyone knows that Sage Tea and Sulphur, properly compounded, bring back the natural color and luster to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is a nuisance and troublesome.

Nowadays we simply get it any drug store for "Witch-Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time, by morning the gray hair disappears and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Witch-Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease, but

The AMERICAN LEGION

OFFICE OF THE LEGION SECRETARY, 101 N. NEW STREET

AMERICAN LEGION NOW HAS THE DEPARTMENT OF PANAMA

Scene on the island of Taboga, Where the Department of Panama Held Its Recent Convention.

Sixteen years ago when President Roosevelt called on the men of America to enlist in the great adventure of cutting a waterway from ocean to ocean through the Isthmus of Panama that the strength of the American flag might not be divided by a voyage of weeks from the east to the west coast there were thousands of volunteers who answered his call. To Panama they went and built the great canal, fighting all the time against tropical heat, almost perpetual rain, fevers and all the pests of the tropics.

Many of them gave up the struggle and returned home but others stayed until the great dream came true. And they are there yet in that far-flung outpost of America by the locks that are lapped by the waters of two oceans.

Again in April 1917 came a call to duty—a summons to war—and that call was not unheard at the canal. One by one men and women dropped out of the shops and offices and donned the army khaki and the navy blue or the modest cap and cape of the army nurse corps until on November 11, 1918, the day of the armistice there were approximately 500 Canadian men and women in uniform.

They saw service in all branches of American arms. They were on land and sea, in the air and under the water. They were a versatile people and they were fighters as their building of

the canal had proved. They came back with almost every member and decorator of the war and many citations from the French, British and the other allies.

In September of last year several of these fighters met to form a post of the American Legion. One had recently been in Italy in France, another is a lieutenant of engineers and has done things in No Man's Land that high British officers said were impossible. A third after many months of volunteer ambulance driving before America entered the war had enlisted in the French artillery and had ended as a lieutenant. His first post was immediately followed by a second and the creation of the department of Panama of the American Legion with headquarters at Cristobal.

The first convention of the department was held recently on the Island of Taboga, 12 miles from the mouth of the Isthmus of Panama and in sight of the spot where in 1513 Vasco Nunez de Balboa discovered the Pacific ocean. At this convention Albert S. Ward was elected department commander and I. W. D. Daily, department lieutenant for the coming year. These officers previously had been elected by Congressmen Patterson and Herbert Benson respectively. Arrangements were also made to have the Panama department represented at the Cleveland convention.

The Weekly Wash.
To the man who has a brand new car, and his first one, every Sunday is "clean up" day. But he gets over it.—Mohawk Messenger.

What's in a Name?
At one time the people believed that the descendants of Judas Iscariot were living in Costa Rica, although those accused of such a heinous crime. In Brazil an ethnography of Judas is carried by the school boys to a ship where sailors bring it from the land. In the Greek church at Smyrna once a year there is a ceremony at which a person is paid a great sum to impersonate Judas. Such is the feeling of the people that he who accepts this odious part is liable to retain the name through life.—Boston Post.

HE FEELS TEN YEARS YOUNGER

Any man or woman suffering from lame back headache stiff joints, sore muscles, rheumatic pains or any other symptoms of kidney or bladder trouble will be interested in this letter from H. Hyde, 99 Garden St., Hoboken, N. J.: "I could not bend down for some years, as I can now. My wife had many a time to put on or off my shoes. I obtained relief with Foley Kidney Pills. I feel now as if I were ten years younger." Sold everywhere.

CLEVELAND SIX

Cleveland Six Now Only \$1435

The Cleveland again establishes a new standard of quality and value in the light car field. It offers so much more at such a fair price that other light cars—sixes and fours—can scarcely be thought of as competitive. Cleveland character is distinctive, its daily service is unsurpassed.

No Other Light Car Offers Such Worth

The exclusive Cleveland motor, the most highly developed of the powerful over-head type, gives an abundance of speed, a rare flexibility of power, and a dependability and endurance that surpasses other light cars.

The sturdiness of its chassis construction, the ease of its control, the soft cushion-like action of its underslung spring construction—all these qualities add immeasurably to the certainty and comfort of the Cleveland's performance on any road, on the steepest hills, and in crowded traffic.

A Selection of Body Styles That Meet Every Wish

Bodies of dignity and beauty are mounted on the Cleveland chassis, and no other car offers cleaner lines, more truly sturdy gracefulness or deeper lustre of finish than does the Cleveland Six.

Why Not Try Little "Want"

Uneeda

Year in and year out Uneeda Biscuit have maintained their place as the world's best soda crackers and thereby hold the esteem of American housewives who demand super-excellence in point of crispness; flavor and nourishment. Keep a supply on hand.

NATIONAL BISCUIT COMPANY

Biscuit

FOR BURNING ECZEMA

Apply Zemo, the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any drugstore for 35c, or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean dependable and inexpensive antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

S-A-Y! Have You Tasted McCarty's

Peanut Brittle

It's the one I have named YANKEE. I'm making it fresh every day and from the more than enthusiastic reports I'm getting from it, I'll soon have to be making it twice a day.

You know it's made from pure cane sugar and lots of those sweet little Spanish peanuts.

We're putting it up in special pound boxes. Why not get a box tonight?

McCARTY'S

Origin of Dollar Mark.
Some claim that it is a modification of the English symbol (£) for the pound. Another explanation is that it came from the letters U. S. written over the other. Yet another theory is that the two upright marks represent two pillars of brass before the temple of Solomon, which early appeared on our coins and became intertwined with a scroll.

Worth the Labor Involved.
In the old days, the Centopoda, or horned quadruped dinosaur, provisionally named the Eo ceratops, roamed the Red Deer valley, in Alberta, Canada, and at Stoveville, 125 miles southwest of Calgary, W. E. Cutler excavated a fine ossified specimen of this huge creature. One side is almost intact. Mr. Cutler had to cut through twelve feet of rock to clear away the skeleton. He had been excavating on this one specimen for eight months.

Order Your Hallowe'en Candy

The earlier we get your order for Hallowe'en candy you know, the home-made kind—the surer you are of getting it on time. We're booking lots of them right now and they're coming in fast.

Hunting New Pearl Beds.

The pearl fishermen of the Orient and of the South sea are hunting for new beds of pearl oysters. The demand for pearls is so great and the fisheries are being worked so continuously that new pearls do not have time to grow.

DO YOU KNOW WHAT IS THE MATTER?

When You Feel Out of Sorts and See Things With a Dull Eye

LOOK TO YOUR BLOOD

Pale Complexions, Languid Feelings, Lowered Vitality, Need More Red Blood. Take Pepto-Mangan

So many people spend week after week feeling down and out. They never stop to think that something really is the matter. They satisfy themselves by saying, "Oh, I'm not sick. I'll be all right tomorrow."

And tomorrow comes again and again. Still they feel depressed and languid, scarcely able to get around.

If you don't feel like yourself, you are not your self. If you are weak and pale, your blood needs strengthening. You should know about Pepto-Mangan, that famous blood tonic.

Physicians recommend it and prescribe it because it contains just the ingredients needed to make red blood. It renews your energy, puts you where you ought to be. Begin with it today. Get the tablets if they will be more convenient to take than the liquid. Both have the same medicinal properties. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name "Gude's Pepto-Mangan" is on the package. Advertisement.

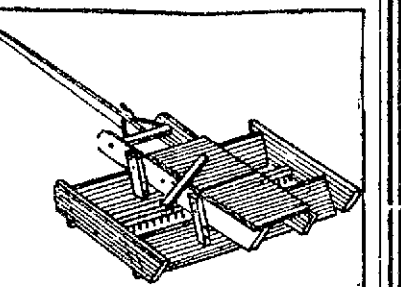

HOME-MADE FLOAT OR CLOD CRUSHER HANDY

Device Does Satisfactory Work on Very Lumpy Soil.

Illustration Gives Good Idea of Construction of Implement Which Can Be Put Together at Small Cost—It Kills Weeds.

It sometimes happens that land gets very lumpy or full of clods and, to get the best results, these clods should be mashed or ground up. To do this a home-made clod crusher will be found to do the work in a most satisfactory manner.

The accompanying drawing shows how such a crusher can be made at home with but slight expense. It is made by taking two two by eight

Float or Clod Crusher.

pieces eight feet long and spiking two by six pieces on the ends and also on top. To save a little expense a sled tongue can be used, and will answer just as well as to make one. A four by four piece is placed between the floats and is held in place by lag screws in each end. This piece should have teeth inserted into its lower side which are made from five-sixteenths inch round iron, and should stick out about two and one half inches. Holes should be bored into the four by four, slightly smaller than the iron, and should slant backward. A lever can be bolted to this piece, which by moving front or back will press the teeth more or less into the soil. There could be a seat put onto it, but it is better to stand up, as by so doing, if any rubbish gets under it, a step forward will raise the hind end and let the obstruction out, says a writer in The Farmer. This machine is also a fine thing to go over a corn field just before the corn comes up and will kill more weeds than a drag.

IMPORTANCE OF MALE BIRDS

Exert Much Influence in Producing Qualities of Offspring—Two Classes of Hens.

Doctor Pearl, formerly of the Maine experiment station, makes mention of the fact that among the high producing hens there are two classes, one class having the ability to transmit their high laying qualities to their daughters, and the other class being poor breeders. It simply amounts to the selection by means of the trap nest of the high layers. These in turn are mated to sons of high layers and the progeny of the mating is again tested as to egg production. It is agreed by the most careful observers that the male bird exerts a very important influence in the producing qualities of the offspring, and that a good hen mated to a poor male would likely give very indifferent results.

DAY FOR DIGGING POTATOES

Quality Is Influenced to Considerable Extent by Manner in Which They Are Dug.

The table quality of potatoes is influenced to a considerable extent by the way they are dug and stored.

Potatoes should be dug if possible, on a clear day, when the soil is not wet enough to cling to them, advises the college. They should be left in the field only long enough to become dry, then stored in a place which is cool and rather moist, and as dark as possible.

Under ordinary home storage conditions, because of the danger of decay, it is not wise to have the potatoes more than two and one-half or three feet deep, either in a pile or in a box, says an agricultural college potato man.

FLOOR OF PORTABLE HOUSES

It Should Be at Least One Foot From Ground, Open and Free—Cement Baffles Rate.

Floors of portable poultry colony houses should be at least one foot from the ground, and the space underneath should be open and free. Permanent brooder houses should have cement floors, and the doors and windows should be screened with one-inch mesh wire fencing. If such precautions are taken, rats and weasels usually do little damage.

SALT PREVENTS INDIGESTION

Used by Experienced Shepherds in Changing Sheep From Old Pasture to New.

Many experienced shepherds mix salt with air-shaken lime, a little more lime than salt to prevent indigestion and bloat when the sheep are changed to new pastures. On some farms tobacco stems are dipped in a strong salt brine and go additional salt is given to the sheep. This helps to control parasitic infection and is beneficial to the ewes and lambs.

Mrs. Fred Burchfield and daughter, Ruth, have returned from visiting relatives in Huntingdon and Philipburg.
